Work Experience

Senior Software Engineer — Patreon

July 2026 - Present | San Francisco, CA

Software Engineer — Patreon

Sept. 2025 - July 2026 | San Francisco, CA

- Designed a company-wide initiative to link backend API types with frontend code, eliminating a common class of recurring production bugs and incidents
- Led the rollout of automated accessibility testing and clear-cut accessibility standards ahead of legal compliance requirements, becoming the go-to accessibility expert across teams

Software Development Engineer II — Amazon

Mar. 2025 - Sept. 2025 | Seattle, WA

- Coordinated system design proposals across three teams of engineers to build AI solutions for processing hundreds of pages of legal documentation
- Developed automated product financial evaluation systems that drove supplier negotiations for hundreds of in-development products

Software Development Engineer — Amazon

Oct. 2023 - Mar. 2025 | Seattle, WA

- Designed and implemented a ticket routing system using React Router that collectively saved 200 days a year of ticket dwell time
- Gathered stakeholder feedback to develop requirements and enhancements that eliminated 20 hours a week of churn by giving visibility into business logic

Education

New York University

BA in Mathematics and Computer Science, Minor in Data Science | Sept. 2019 - Dec. 2022
